President's Message

First of all, I want to give a big thank you to everyone who attended our September meeting at Ochsner. We had a great presentation on "The History and Science for Silver in Managing Infections" and delicious catering (sponsored by Silverlon) from Ye Olde College Inn. Now, it may not feel like it outside, but it is officially Fall! Get those (optional) Halloween costumes ready for our next meeting on Wednesday October 30 at East Jefferson General Hospital. We will have a presentation worth 1 CE and light refreshments available.

It's difficult to believe that 2019 is almost over and the holiday season will soon be upon us. Before that holiday hustle begins, don't forget to take time to celebrate Perioperative Nurses Week from November 10-16, 2019. For creative celebration ideas and to learn how to advocate for your profession, go to <https://www.aorn.org/events/perioperative-nurses-week>. Before then, don't forget to celebrate our Great 100 Nurses on October 23, 2019, especially AORN Chapter 1902 members Rochelle Cazaubon, Jeanne Feltey, Carolyn Gaude, and Judy Montello. Congratulations!

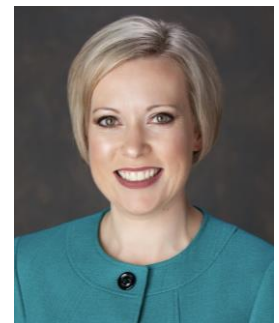

Spring will be here before you know it and that means it'll be time for the 2020 AORN Global Surgical Conference and Expo in Anaheim, CA! AORN of New Orleans will be represented by 9 Delegates. If you're interested in being a Delegate in Anaheim, please see the information in this newsletter and keep an eye out for additional information in your e-mail.

As always, feel free to contact me via the information listed in this newsletter. I welcome all feedback or input and will be sending out a member survey by the end of 2019.

Respectively,

Carrie Simpson, MSN, RN-BC, CNOR

ANA Advocacy Issues

Workplace Violence
One in four nurses has been abused in the workplace. Overall, the likelihood of health care workers being exposed to violence is higher than prison guards or police officers. The stories nurses tell are horrifying, and all too common. Every day, nurses are stabbed, punched, grabbed, kicked, verbally assaulted, or worse. Nurse abuse can be prevented, with collaborative approaches. For years, ANA has led the charge to end nurse abuse, raising awareness about the threats and pushing for administrative and legislative solutions. Yet few health care employers have developed suitable plans to prevent workplace violence, putting nurses and others at risk daily, just for doing their job. It is of the utmost importance to report abuse against nurses whenever it is safe to do so. Similarly, ANA continues to advocate for pathways for whistleblowers to come forward to report such abusive actions. Recently lawmakers introduced the Workplace Violence Prevention for Health Care and Social Service Workers Act (H.R. 1309/S. 851) that would require the Occupational Safety and Health Administration (OSHA) to develop standards requiring health care and social service employers to write and implement a workplace violence prevention plan to protect employees from violence incidents in the workplace.

Community Service Projects:

At **every** AORN meeting, along with collecting toiletries, eyeglasses, socks, etc. for the New Orleans Rebuild Center for the homeless, the chapter will be collecting food for Second Harvest. Second Harvest accepts nearly all types of food products (nonperishable items and produce). They prefer non-glass containers for safety reasons. Please consider nutritional food items that are low in sodium/salt.

Don't worry... if you forget to bring food, you can give money. Sharon Guardina will buy your food items and bring all food items to a food harvest center every month.

Our chapter is also exploring other options for community service. Here are some suggestions:

New Orleans Medical Mission
Habitat for Humanity
Making Sleeping Bags for the Homeless
Feeding the Homeless at a Shelter

- Nathalie Walker is working on local Habitat for Humanity projects.
- New Orleans Medical Mission has opportunities for participation on Wednesdays and Saturdays.

Legislative Report continued from page 2

Gun Violence

"The time to unite and take action is now. Together we can halt the growing list of victims. We can stop the madness by forging solutions that address the myriad issues that promote cycles of violence. We must raise our voices to join with members of our communities and at every level of civil society in dialogue and action, to address the underlying issues that result in hate and motivate unspeakable acts of violence." Former ANA President Pamela Cipriano, PhD, RN, NEA-BC, FAAN
As the largest single group of health care professionals, nurses are increasingly caring for those victimized by gun violence and those forced to confront the physical and emotional consequences of these senseless acts.

For decades, ANA has called on Congress to enact sensible legislation aimed at reducing gun violence. In the wake of multiple mass shootings that have taken place across the country, ANA, representing the voices of more than 4 million registered nurses nationwide, renewed its call to action by urging lawmakers to immediately repeal restrictions prohibiting the CDC from studying gun violence. Following the inclusion of this language in the most recent omnibus bill, we're calling on Health and Human Services Secretary Alex Azar to direct the CDC to begin this research immediately. ANA also supported passage in the 116th Congress of HR 8, a bipartisan, common sense bill to make background checks universal.
